EXPERIENCE

Entrepreneur Julissa Hash Sole-Proprietor

2018–2024

Self-employed

Austin, TX

I have created and managed a family business, meanwhile being a family manager, including customer acquisition, billing, and collections. Provide household management services on a recurring weekly basis-primarily high-end professional clientele who travel frequently.

Key Accomplishments:

- I have grown the business to 20% annually via high-quality service delivery and referral marketing.
- Responsible for client communications, service delivery, and relationship management.
- I developed and coordinated all operational logistics, including staffing, scheduling, and client feedback.
- I have implemented new services recognizing and innovating upon everyday client needs.

Graphic Designer

Lima, Perú

Freelancer

I have designed corporation and small business campaigns that would reinforce product promotion, set up objectives, and creativity Integration to manage functionality improvement.

- I have helped grow startup companies to a rate of 30% per campaign by analyzing planned programs on client connectivity and re-designing a strategic resolution.
- I have injected graphic design creativity into corporations to elevate substantial objectives on narrow products.
- I have administered small business's integral project services from design to final work print.
- I have managed under contract by the project freelancers to execute delegated instructions on high-demand season campaigns.

EDUCATION

Certificate, Full Stack Web Development (2021)

The University of Texas at Austin, Austin, TX

Post-Secondary Diploma, Administrative Management, and Marketing

British Academy, Lima Perú
